

## Maris WaterHub Boiling Elec. J Copper 4L | 160.0737.301

Maris Water Hub, Set Boiling 3 in 1 electronical tap copper, J-spout, side lever, with Heating Tank and Filter Housing, EU-plug

### Egenskaber

|               |            |
|---------------|------------|
| Tud           | J - formet |
| Farve         | Copper     |
| Materialetype | Messing    |

### Dimensioner

|                         |       |
|-------------------------|-------|
| Diameter armaturhul     | 35 mm |
| Dimensioner på kartushe | 35 mm |

### Installation

|                     |        |
|---------------------|--------|
| Installeringsmetode | Skaft  |
| Vandtilkobling      | 3/8"   |
| Vandslange          | 500 mm |

### Produkt specifikation

|                 |               |
|-----------------|---------------|
| Tryk            | Højt vandtryk |
| Version         | Svingtud      |
| Operation       | Greb side     |
| Rotation på tud | 180°          |

### Produktidentifikation

|                |                 |
|----------------|-----------------|
| Varemærke      | FRANKE          |
| Produktfamilie | Maris           |
| Model          | Maris Water Hub |

### Produktegenskaber

|                              |                  |
|------------------------------|------------------|
| Elektronisk                  | Lys og trykknop  |
| Vandbesparende               | Nej              |
| Perlator type                | High Temperature |
| Type multifunktionelt system | Varmetank        |
| Beholderkapacitet            | 4L               |
